Dear Timber Creek High School Parents and Families,

In an effort to keep you informed, I wanted to make you aware of an incident that occurred in a classroom today, where a student was heard making statements of a threatening nature.

Witnesses did the right thing and made TCHS staff aware of the comments, and the student was immediately removed from the classroom and questioned by campus administrators, as were the witnesses. Fortunately, this threat was deemed not credible.

Please be assured that your child's safety is our top priority and we take all threats very seriously. Please talk with your student about the seriousness of making any kind of statement – whether in person or on social media – that could be construed as threatening or violent in nature.

I appreciate your support as we remain ever vigilant in our efforts to ensure we maintain a safe learning environment.

Sincerely,

Michelle Somerhalder
